Art Unit: 2629

1. **Status** Please all the replies and correspondence should be addressed to examiner's new art unit 2629. Receipt is acknowledged of papers submitted on 06-21-2007 under request for reconsideration, which have been placed of record in the file. Claims 1-13 are pending in this action. Applicant has cancelled claims 14-44.
2. Applicant's arguments, see Remark, filed 06-21-2007, with respect to Claims 1 regarding "a pixel layer having a repeating pattern of sub-displays formed on a continuous pixel layer sheet, the sub-displays including display elements; a plurality of drivers, and a connection layer in communication with the drivers having a continuous sheet with conductive traces for distributing power and data to the drivers wherein the pixel layer, the connection layer and the drivers are laminated together to form the large area display" have been fully considered, extensively searched in prior art as well as PUPUB and are persuasive as they do overcome prior art rejection; which puts application number 10712229 in condition for allowance.

Allowable Subject Matter

3. Claims 1-13 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed on 06-21-2007; are convincing. As argued by applicant in remarks under claim rejection page 4, last two paragraphs and page 5, first three paragraphs; the prior art of Matthies et al. (US 2005/0078104 A1); Hayashi et al. (6,359,666 B1) and Fukuda, Masafumi (US 20020044142 A1) fails to recite or disclose the uniquely distinct features

Art Unit: 2629

represented by underlined bold claim below; in combination with all the other recited limitations in independent claim 1;

a pixel layer having a repeating pattern of sub-displays formed on a continuous pixel layer sheet, the sub-displays including display elements; a plurality of drivers, and a connection layer in communication with the drivers having a continuous sheet with conductive traces for distributing power and data to the drivers wherein the pixel layer, the connection layer and the drivers are laminated together to form the large area display.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
